

Data Driven Community Health Improvement (CHI) Process

Pre-Conference Workshop for 2016 CSTE Conference

Description: *Building on the skills from the 2015 pre-conference workshop, these two half-day workshops will prepare participants to effectively support the CHI Process with the increased knowledge and skills related to utilizing small area estimates; CHI user-friendly tools and resources; evidence-based practices for collaborative, multi-sector assessment, intervention selection, monitoring, and evaluation; and results based accountability.*

The workshops include presentations & demos on new and emerging tools and resources, offer practical tips and lessons from the field, and provide an opportunity for practical skill-building.

Agenda

8:30 am Introduction - Vickie Boothe, CDC

- Agenda & learning objectives
- Logistics & ground rules

Brief Refresher: Drivers for the CHI Process

- ACA/IRS requirements for tax exempt hospitals
 - Engage at least 1 State or local health department
 - Engage community members in assessing status and prioritizing focus areas
 - Evaluation requirement
- Voluntary PH Accreditation
- Others (FQHCs, Grants, CBOs)
- Q & A

Brief Overview: Seven Common Steps of the (CHI) Process

8:45 am Introduction SCALE Project - Amy Laurent, Seattle King County Public Health

- Need & Utility of Sub-County Life Expectancy – the SKC experience
- Resources including a pre-work flow chart and tips for getting started.
- Q & A

9:05 am Best Practices, Challenges, & Solutions for Calculating and Displaying LE Estimates- Tom Talbot, NYSDOH

- Flow Chart for Calculating LE
- Deleting census tracts with no population or tracts with a large percentage of group quarters
- SEPHO and other Tools
- Using Geographic Aggregation Tool to reduce small number problems

9:45 am Table top exercise 1 (table participants will be provided with copies of the flowchart, first working alone and then as a group, participants will identify challenges that may require modification of the flowcharts based on the unique characteristics of their jurisdiction, or specific resources, available data, and/or expertise within their organization. As a last step, the table participants will come to agreement on the top 3 challenges with completing steps to the flowchart.) 15 minutes

- 10:00 am** **Break**
- 10:30 am** **Table Top Exercise 1: Brief Report Outs**
- 10:45 am** **Lessons from the Field**
Adaptation of SCALE Methods and Process: Maine Department of Health SCALE Experience - Jessica Bonthius
- Modifications to the Process/Flow Chart
 - Challenges and Solutions
 - Potential Applications & Next Steps
 - Q & A
- 11:05 am** **Adaptation of SCALE Methods and Process: Florida Department of Health SCALE Experience – Melissa Jordan & Kristina Kintziger**
- Modified to the Process/Flow Chart
 - Challenges and Solutions
 - Potential Applications & Next Steps
 - Q & A
- 11:45 am** **National SCALE Project**
- Accessing the Guide and Software
 - Introduction to PHASE III
 - Q &A and Wrap-Up
- 12:00 pm** **Break for Lunch**
- 1:15 pm** **CHI Workshop Part 2: Utilizing small area data; cost effective and scientifically supported interventions; and a collective impact framework to implement, monitor, and evaluate public health impact at the community level (3.5 hours).**
- Theory of CHI Evidence-based & Best Practices Decision Making -Vickie Boothe**
- Introduction to Intervention Selection – Vickie Boothe**
- Selection Criteria & Process: Challenges and Helpful Resources
 - Utility of Evidence Level Resources
 - Principles of Impact
 - Identifying the Evidence-based, Highest Impact, Most Cost Effective Interventions
 - Policies, Systems, and Environmental (PSE) Change
 - Interventions directly addressing the social determinants of health
 - Brief Resource Demonstrations
 - Guide for Community Preventive Services

- County Health Rankings What Works for Health

- Introduction to Monitoring and Evaluation

2:00 pm **Lessons from the Field: Amy Laurent**

2:15 pm ***Table Top Exercise 2: Identifying Interventions for CHI Using New Resources***
(20 minutes as a group and 25 minutes report out)

3:00 pm ***Afternoon Break***

3:30 pm **Recap**

3:40 pm **Lessons from the Field**

- Policy, Systems & Environment Change
- Collective Impact
- Results Based Accountability
- Collective Impact Evaluation
- Q & As

4:15 **Wrap-up and Evaluation**

4:30 **Adjourn**
