NMI Technical Assistance and Training Resource Center

NNDSS
National Notifiable Diseases Surveillance System

WHAT: NMI Technical Assistance and Training Resource Center

The National Notifiable Diseases Surveillance System (NNDSS) Modernization Initiative (NMI) Technical Assistance and Training Resource Center is a one-stop shop for NMI-related materials. Here, you can find implementation and onboarding guidebooks, FAQs, links to new HL7 message mapping guides, and other resources. Through the resource center, you can learn about the types of technical assistance available, make technical assistance requests, and access implementation and onboarding information for NNDSS HL7 case notifications. Access the resource center at *https://www.cdc.gov/nmi/ta-trc/index.html.*

How Do I Request Technical Assistance?

- Send an email to the CDC Electronic Data Exchange email inbox at *edx@cdc.gov.*
- Use "NMI Technical Assistance Request" as the subject line.
- Include a brief description of the assistance needed.
- The NMI Technical Assistance team will reach out to you for additional information.

How Do I Request Onboarding?

- Send an email to *edx@cdc.gov.*
- Use "[Your Public Health Agency] NMI Onboarding Package for [Specific MMG]" as the subject line.
- Include information requested for the onboarding package (available in the NMI Public Health Agency Onboarding Guidebook on the resource center).
- The NMI Onboarding Team will reach out to you for additional information.

About NMI:

The NNDSS Modernization Initiative is a close collaboration involving CDC programs, partners at the Association of Public Health Laboratories and Council of State and Territorial Epidemiologists, and state public health departments. Additional information about NMI is available on the NMI website at *https://www.cdc.gov/nmi/.*
